Letter of Recommendation in favor of Jeet Banik

To

Whomsoever it may concern,

Date: Sept 30, 2020

Mr. Jeet Banik of Jain University, Bangalore did an internship under my supervision for three months during the summer 2020. As part of the training, he acquired excellent comprehension of the fundamentals of Machine Learning, Deep Learning and their applications. He developed his skills in Python, Data Pre-processing, Data Visualization, Computer Vision, Natural Language Processing and various related tools.

As part of his internship, he worked on a project for Real-time Face Mask and Keypoints Detection during the Coronavirus pandemic using Computer Vision. He had to understand and replicate the results of state-of-the-art papers related to this field to complete his project. I am sure that the quality of his work coupled with his innate abilities will ensure that he makes significant contributions to whichever field he puts his effort towards.

Jeet has been an enthusiastic intern and I wish him well for his future endeavors.

Best regards,

Dr. Laxmidhar Behera
Poonam and Prabhu Goel Chair Professor
IIT Kanpur
